

How to Disable Chrome's Print Preview Screen

1. First - Make sure to close all active Chrome windows.
Next - Create a Chrome shortcut and place it on your desktop.

2. Right Click on the shortcut icon and click on 'Properties'.

3. In the 'Target' field, at the end, add the following words:
“ --kiosk-printing” and click 'Apply' then click 'OK'.
Important! Before typing the two dashes you must first type two spaces. This will disable the Print Preview screen.

Make sure to open Chorme from the shortcut, otherwise the 'Print Preview' screen will still open.
